Your Support Matters

The Maize Education Foundation is excited to host its 11th annual charity golf tournament. Last year, almost 40 sponsors and nearly 30 teams helped raise more than \$37,000. Help us hit our target of \$45,000 in 2019!

Proceeds help provide funding to areas of greatest need in the district while covering the administrative costs of keeping the Foundation operational.

The Maize Education Foundation is a nonprofit, 501(c)(3) organization devoted to facilitating resources, funds, strategic partnerships and opportunities that enhance the education and post-secondary preparation of students within the Maize School District.

Since its founding in 2003, the Foundation has worked alongside the district's administration, staff and board of education to identify and address ever-changing needs in arts, technology, curriculum and more. In that time, the Foundation has awarded nearly \$350,000 in grants in support of Maize students and educators.

With the continued support of generous donors, sponsors and volunteers, the Foundation impacts countless students and their families through grants and programs within the OneMaize Community.

To learn more about the Maize Education Foundation, email Travis Bloom: travis@maizeeducationfoundation.org or call (316) 350-2029.

CHALLENGE GRANTS

The Foundation is committed to providing supplemental funding for instructional projects and educational programs that might not otherwise be funded by the district due to limited financial resources.

STUDENT GRANTS

The Foundation strives to support opportunities that encourage Maize students to find their own versions of success and to become responsible, civically engaged adults. Students in grades seven through 11 can apply for a grant of up to \$500 to help cover the costs associated with enrichment activities like leadership seminars, educational expeditions and more!

STUDENT WORKSHOPS

Partnering with area businesses and community volunteers, the Foundation aims to provide opportunities for students to work on scholarship and grant applications, professional resumes and prepare for interviews as well as learn financial literacy and workplace skills to prepare them for successful futures.
