Your Support Matters

The Maize Education Foundation is excited to host its 14th annual charity golf tournament. Last year, more than 50 sponsors and 30 teams helped raise more than \$50,000. Help us hit our target of \$52,500 in 2022!

By supporting the Maize Education Foundation and our annual golf tournament, you are investing in local public education and strengthening the development of a local workforce that will enhance the Greater Wichita community for years to come.

The Maize Education Foundation is a nonprofit, 501(c)(3) organization devoted to facilitating resources, funds, strategic partnerships and opportunities that enhance the education and post-secondary preparation of students within the Maize School District.

Our mission is to work with our educators and area business community to pilot educational and enrichment programs, develop new curricula, and champion innovative and advanced experiential and project-based learning opportunities for all Maize students.

It is our vision that Maize students will be the most prepared, the most competitive, and the most successful future students, employees, citizens, and leaders in the region upon graduating from the Maize School District.

To learn more about the Maize Education Foundation, email Travis Bloom: tbloom@usd266.com or call (316) 350-2029.

CHALLENGE GRANTS

Challenge Grants provide supplemental funding for instructional projects and innovative programs that might not otherwise be funded by the district due to limited financial resources.

Every district employee is eligible to apply for a grant in these four categories:

- STEAM / Project Based Learning**
- Social Emotional / Character Development**
- Academic / Instructional**
- Professional Learning**

STUDENT GRANTS

Student Enrichment Grants support opportunities that encourage Maize students to find their own versions of success and to become responsible, civically engaged adults.

Students in grades seven through 12 can apply for a grant of up to \$500 to help cover the costs associated with enrichment activities like leadership seminars, educational expeditions, national competitions and more!

STUDENT WORKSHOPS

Partnering with area businesses and community volunteers, the Foundation aims to provide opportunities for students to improve workplace and life skills such as application submission, resume building, interview prep and financial literacy and to expose them to the growing variety of vocational opportunities that lie before them.
